Krupp SDvt II

cisaille double ● alimenteur de feuilles

Pre-owned duplex slitter with feeding unit. The duplex slitter is equipped with a tandem axis frame for the second slitting operation, significantly reducing the time needed to adjust the can height. Especially useful in the production of aerosol cans. The typical changeover time is 3 hours, but now it takes only 20 minutes. Previous owner adjusted the height between 75 and 300 mm. The hard metal cutters can be adjusted hydraulically.

Spécifications techniques

CazProductNuméro CPN	6498
Nom	Krupp SDvt II
Outillage	65 mm
Vitesse jusqu'à	40 sheets per minute
Largeur max. de la feuille	1200 mm
